

PHOENIX 4 Carts

The Master of quick change

Pre-assembled – Convenient – Ready-to-go – Fully customizable

PHOENIX 4 Cart - Leak Detection To-Go

The various pre-designed combinations offer the perfect choice for your needs: All **PHOENIX Carts** versions come fully assembled and leak-checked to offer a time-saving, ready-to-go solution. With this, the **PHOENIX Carts** guarantee best performance from the minute you turn it on. Plug in and ready to start:

- Fully assembled, leak checked, CE proven and performance tested to offer a safe and convenient plug-and-play solution
- For leak detection in rough environments and/or measurements from atmosphere on, the partial flow system helps to find leaks immediately and in the worst conditions
- For ultimate clean applications, dry pumps with different pumping speeds offer the best safety and performance for your process
- Strong and convenient design for an extra long life

Choose your combination!
